Grades

Overall, my grades are good. My GPA is approximately 3.2 and I generally enjoy school. Classroom learning isn't my favorite thing, but I work hard to earn the best grades I can.

My favorite thing to do is to visit my family in California. Both of my parents have a lot of siblings, so I have 25 cousins. I love going to visit them and we have so much fun together.

Family Members

I live with my Mom (Maria) and my Dad (Juan). My Grandmother (Christina) also lives with us. I have 3 siblings, Paola (4), Manuel (6) and Esme (9). I'm the oldest and right now I'm 12.

Best Quality

I think my best quality is that I like to help people. Even though it can be difficult sometimes, I do really like taking care of my siblings and my grandmother. I like helping out teachers at school and making others happy.

Leisure Interests/Hobbies

Between school, my activities and watching my siblings, there really isn't a lot of extra time, but when I do get some time I like to play video games, like most boys my age, but I also like to paint and do other artwork. My Dad is a really good artist and he has shown me a lot of interesting techniques and I really enjoy creating unusual pieces of artwork. To the left is one of my pieces.
